

most, duplicate contact (early stage),  
triple contact (middle stage),  
quad. contact (late stage) and  
maxillary cleft by embolus in.

In other studies we have  
noted the following, namely,  
1. Contact, in the early stage,  
2. Contact, in the middle stage,  
3. Contact, in the late stage,  
4. Contact, in the late stage,  
5. Contact, in the late stage,  
6. Contact, in the late stage,  
7. Contact, in the late stage,  
8. Contact, in the late stage,  
9. Contact, in the late stage,  
10. Contact, in the late stage,  
11. Contact, in the late stage,  
12. Contact, in the late stage,  
13. Contact, in the late stage,  
14. Contact, in the late stage,  
15. Contact, in the late stage,  
16. Contact, in the late stage,  
17. Contact, in the late stage,  
18. Contact, in the late stage,  
19. Contact, in the late stage,  
20. Contact, in the late stage,  
21. Contact, in the late stage,  
22. Contact, in the late stage,  
23. Contact, in the late stage,  
24. Contact, in the late stage,  
25. Contact, in the late stage,  
26. Contact, in the late stage,  
27. Contact, in the late stage,  
28. Contact, in the late stage,  
29. Contact, in the late stage,  
30. Contact, in the late stage,  
31. Contact, in the late stage,  
32. Contact, in the late stage,  
33. Contact, in the late stage,  
34. Contact, in the late stage,  
35. Contact, in the late stage,  
36. Contact, in the late stage,  
37. Contact, in the late stage,
